Scene 2 : Creating a Project

*Panel 1:* Sarah clicks on "New Project" and enters project details like name, location, and start date.  
*Panel 2:* She adds team members and assigns roles using the software's team management feature.

Scene 3 : Project Planning

*Panel 1:* Sarah creates a project schedule using the software's scheduling tool, adding tasks and setting deadlines.  
*Panel 2:* She uses the Gantt chart feature to visualize the project timeline and dependencies.

Scene 4 : Resource Management

*Panel 1:* Sarah assigns resources to tasks, including equipment and personnel, using the software's resource management tool.  
*Panel 2:* She checks resource availability and makes adjustments to the schedule as needed.

Scene 5 : Budget Tracking

*Panel 1:* Sarah enters the project budget and tracks expenses using the software's budget tracking feature.  
*Panel 2:* She generates budget vs. actuals reports to monitor project financials.

Scene 6 : Monitoring Progress

*Panel 1:* Sarah checks the project dashboard on the software for real-time updates on project progress.  
*Panel 2:* She receives notifications for tasks that are behind schedule or over budget.

Scene 7 : Collaboration

*Panel 1:* Sarah uses the software's communication tools to collaborate with team members and stakeholders.  
*Panel 2:* She shares project updates and documents securely through the software.

Scene 8 : Project Completion

*Panel 1:* Sarah marks the project as completed in the software and generates a project completion report.  
*Panel 2:* She reflects on the project's success and areas for improvement in the software's project review feature.

Scene 9 : Conclusion

*Panel 1:* Sarah closes her laptop, satisfied with how ConstructionPro helped her manage the construction project efficiently.  
*Panel 2:* A message on the screen reads, "ConstructionPro - Your Partner in Construction Project Management."
